Harbor and ocean

Plan your harbor visit around current revitalization work.

01 A harbor in transition

Harbor revitalization is affecting restaurants, shops and access routes. Wharf Buildings 2 through 5 closed on October 31, 2026. Use the official construction updates and current visitor information before planning your visit.

02 Confirm your ocean outing

Ocean activities continue during construction, including whale watching and Catalina Express service. Confirm current availability, departure location and boarding instructions directly with your operator before traveling.

03 Arrive with a plan

Review current harbor parking and construction guidance before visiting. For an excursion, confirm the boarding location directly with the operator and allow time to park and walk to the dock.
