Getting around

Local connections for enjoying Dana Point and neighboring coastal communities.

01 Use the seasonal trolley

The free Dana Point Trolley connects destinations such as beaches, parks and shopping areas during its operating season. Service is seasonal; check the current route, dates and hours before relying on a trolley connection.

02 Connect across the region

OCTA buses provide regional connections. Nearby San Juan Capistrano station offers Metrolink rail service. Check schedules and the local connection between your destination and the station when planning a trip.

03 Plan the last part of your trip

For harbor visits, review current parking locations, restrictions and access changes. Choose a walking route that suits your destination, time available and mobility needs. Posted conditions and operator updates take priority over a printed guide.
